

Dear Sir

I send you an MS. which is rather a longish one and if you could get it copied for me I would feel obliged. I have certain particular reasons for being so out over this some of which I explained to you when I saw you and I send you this by special messenger in case it might otherwise wash away. After you have perused it I would be glad to have your opinion on it and shall then instruct my servant as to the steps

Abbot's Ford June 1844.

Yours truly
W. A. F. S. M.

You might give the name the MS. left with you along with the small thing by way of proof you have.

Mr. Wallis. Secy. sending me
to be sworn with Secy. —
